

<h1 style="text-align: center;">MAINE PRIMARY CARE ASSOCIATION</h1> <h2 style="text-align: center;">CLINICAL EDUCATION RETREAT</h2>		Friday August 21 st , 2020	
		8:30 AM – 4:30 PM	
		Virtual via ZOOM	
Meeting contact:	Greta Cummings: gcummings@mepca.org	Type of meeting:	Clinical Education Virtual Seminar
Facilitator:	Sarah Morrill, RN, BSN, HNB-BC Quality Improvement Program Manager MPCA	Co-Facilitator:	Christopher Pezzullo, DO Clinical Director MPCA
Theme:	Promoting Clinical Safety		
Attendees:	Medical, Behavioral Health & Dental Providers and clinical staff		
Learning Objectives:	<ol style="list-style-type: none"> 1. To understand the most up-to-date best practices for infection control and ongoing pandemic response in community healthcare settings. 2. To understand best practices in caring for patients with intellectual and developmental disabilities, including engagement and de-escalation. 3. To understand the impact of suicide prevention education and program implementation across disciplines and care delivery sites. 4. To explore strategies for patient engagement around alcohol screening and intervention. 5. To identify best practices for providing anti-racist primary care. 6. To expose participants to the innovative, lifespan-approaches to creating a culture of safety for patients and staff. 		
AGENDA ITEMS*			
Topic	Facilitator	Time	
Welcome & Introductions <ul style="list-style-type: none"> • <i>Agenda review</i> • <i>Zoom instructions and housekeeping</i> • <i>Call to Action</i> 	Christopher Pezzullo, DO Clinical Director MPCA Sarah Morrill, RN, BSN, HNB-BC QI Program Director MPCA	8:30 - 8:45 AM*	
Driving Change through Clinical Advocacy in the World of Virtual Communication In this session, we will look at clinical advocacy, from Inspiration to action, in this unprecedented time of virtual communication. Our MPCA policy team will lead a discussion of the challenges and opportunities that are facing healthcare delivery, locally and nationally, and explore how policy change can impact our ability to provide safe, quality care. We will look at how clinicians can take an active role in current policy debates, as well as how clinicians can drive future policy-making. State Representative Victoria Foley (D - Biddeford), former board member for Greater Portland Health, will be joining us toward the end of our session for a Q&A on the effective use of legislative and media advocacy	Bryan Wyatt, MA Director of Policy and Communications MPCA Marge Kilkelly, MS Policy Program Manager MPCA	8:45 - 9:45 AM*	
Time to Ask – Screening for Alcohol Use Using the Time to Ask interprofessional alcohol use education and quality improvement model, this session provides lecture as well as learner interactivity to lay the groundwork for understanding the ROI of incorporating alcohol screening in primary care, as well as appreciating how stigma impacts this process. We will also review the value in incorporating recovery capital into practice.	Noah Nesen, MD Medical Director PCHC Katie Rosingana, BA Research Associate, Population Health and Health Policy Program, Cutler Institute for Health and	10:00 - 11:00 AM*	

<p>This session will provide health care professionals with knowledge, skills and attitudes to engage in meaningful conversations about alcohol use and supporting the primary care team in establishing best practices that will help to advance compassionate and outcome-based patient care.</p>	<p>Social Policy, Muskie School of Public Service, University of Southern Maine</p> <p>Denise O’Connell, MSW, LCSW, CCM, CCP Senior Program Manager Lunder-Dineen Health Education Alliance of Maine</p>	
<p>Competent Care for IDD Patients/Maintaining Safety</p> <p>In this supportive Safe Table discussion, we will review patient safety data related to Individuals with Development Disabilities. This session will include evidence-based best practices for managing IDD patient expectations, keeping patients and families engaged, and improving treatment compliance. We will also discuss how to create a safe and supportive environment for these patients. Based on national data from the ECRI database, we will look at trends in IDD care and how to make our practices more accessible.</p>	<p>Nancy Cronin Executive Director Maine Developmental Disability Council</p> <p>Andrew Martin, MSN, RN, CPHRM Patient Safety Analyst/Consultant III ECRI</p>	<p>11:15 – 12:30 PM*</p>
<p>Lunch Break</p>		<p>12:30 - 1:00 PM</p>
<p>Updates on Infection Prevention in FQHCs</p> <p>This session will be an update from Maine CDC on where we are with Covid-19, and an overview of emerging risks related to the coronavirus, influenza, and other infectious disease. We will also discuss lessons learned from the local and national pandemic response, including evidence-based practice for patient care, as well as maintaining clinician well-being.</p>	<p>Stephen D. Sears, MD, MPH Clinical Advisor Maine CDC</p>	<p>1:00 - 2:00 PM*</p>
<p>Anti-Racist Health Care</p> <p>As our healthcare community responds to demands for greater social justice, FQHC clinicians are positioned to be models for delivering anti-racist care. We will reflect on the roots of the FQHC movement and the mission to serve the underserved and consider the impact of systemic racism on clinical outcomes. Clinicians will learn tools to provide evidence based, anti-racist healthcare, and be leaders within their organizations and communities.</p>	<p>Arabella Perez, LCSW Assistant Clinical Professor University of New England</p> <p>Regina Phillips, MSW Co-Founder and Professional Consultant Cross Cultural Consulting Group</p>	<p>2:15 - 3:15 PM*</p>
<p>Zero Suicide</p> <p>The Zero Suicide framework is a system-wide, organizational commitment to safer suicide care in health and behavioral health care systems. The framework is based on the realization that suicidal individuals often fall through the cracks in a sometimes fragmented and distracted health care system. A systematic approach to quality improvement in these settings is both available and necessary.</p>	<p>Sheila Nelson MSW, MPH Program Manager, Adolescent and School Health Program Maine CDC</p>	<p>3:30 - 4:30 PM</p>

* You will notice a 15 minute break between sessions. We are recording each session individually to allow for future viewing. This break is to allow participants time to log into each session.
