## INTERESTING READS

[Shots for tots: COVID vaccinations start for little US kids – AP News \(6/20\)](#)

The Food and Drug Administration greenlighted the Moderna and Pfizer kid shots on Friday and the Centers for Disease Control and Prevention recommended them Saturday

[COVID Is More Dangerous Than Flu for Kids, Study Finds – HealthDay.com \(6/17\)](#)

COVID-19 poses far more danger to kids than seasonal flu, a new study confirms

[Hawaii and Maine have scored highest on health care during pandemic – Bangor Daily News \(6/26\)](#)

The health systems in Hawaii and Maine have performed best of all the states during the COVID-19 pandemic, according to new rankings that weighed such factors as vaccination rates, capacity in hospital and intensive care units, and death rates.

[CDC issues new guidance on monkeypox symptoms as U.S. cases balloon – nbcnews.com \(6/15\)](#)

The U.S. has reported 72 cases of monkeypox across 18 states in the last month, making it the country's largest monkeypox outbreak ever.

[Abbott halts production at troubled Michigan plant after severe weather – abcnews.com \(6/16\)](#)

Less than two weeks after restarting production at its Sturgis plant, Abbott said it has once again been forced to halt baby formula production after thunderstorms flooded part of the facility.

[Covid is making flu and other common viruses act in unfamiliar ways – Washington Post \(6/13\)](#)

More than two years into the coronavirus pandemic, familiar viruses are acting in unfamiliar ways. Respiratory syncytial virus, known as RSV, typically limits its suffocating assaults to the winter months.

[Governor Mills Announces Extension of MaineCare Health Coverage for New Mothers – maine.gov \(6/16\)](#)

"The need for pregnancy-related health care doesn't end sixty days after a woman gives birth," said Governor Janet Mills. "This move will ensure that women have access to postpartum care for a full year, which will improve their health and that of the children – setting them both up to succeed in the future. This is another example of how my Administration is committed to supporting women's reproductive health in Maine."

### **Reminder: National Health Center Week set for August 7–13: Sponsorship Request Deadline June 30**

The weekly theme for this year will again be "CHCs: The Chemistry for Strong Communities." Theme days include Public Health in Housing, Healthcare for the Homeless, Agricultural Worker Health, Children's Health, and Appreciation Days for Patients, Stakeholders and Staff. **New this year:** NACHC will be awarding up to two \$500 sponsorships for CHCs in each state to help defray the costs of an event. To be eligible for the sponsorship, CHCs will need to [post their event to the Health Center Week website](#) by **June 30**, invite federal and/or state legislators, and use social media to promote the event. If you don't have all the event details ironed out yet, that's ok; all you need to do at this point is provide a general description of the event **with plans for legislator invites and social media promotion**. If you need assistance posting your events, please contact Andrea Watkins ([awatkins@mepca.org](mailto:awatkins@mepca.org)).

***Is Your Health Center Hiring? Click [here](#) to utilize the MPCA Job Board and list your openings on our website!***

## **POLICY & COMMUNICATIONS UPDATE**

### **NACHC Releases Report on Importance of 340B to CHCs**

Last week, NACHC held a media event to announce the release its report summarizing the findings from its recent 340B survey and outlining key policy asks. The report found that 56% of respondents had an in-house pharmacy, and 86% utilize contact pharmacies; it also highlighted 340B's positive impact on clinical outcomes and access to care. The full report, executive Summary, and infographics are all [available here](#).

### **President Biden Issues Executive Order Blocking Federal Funding for LGBT Conversion Therapy and Curbing Discrimination Against Transgender Youth**

On June 15, President Biden signed an [executive order](#) aimed at curbing discrimination against transgender youth and drying up federal funding for the discredited practice of "conversion therapy". The executive order asks the federal health and education departments to expand access to gender-affirming medical care and find new ways to counter a flurry of bills passed in US states by conservative lawmakers this year that ban these treatments for transgender youth. The order asks federal agencies to ensure that federally funded programs do not offer conversion therapy, which tries to force LGBTQ+ youth to change their sexual orientation, and the Federal Trade Commission to consider policing such practices that seek to change a patient's sexual orientation or gender identity as deceptive businesses.

## **BILLING, CODING & TELEHEALTH NEWS**

### **CORRECTION: COVID-19 Vaccine Counseling Under the American Rescue Plan, CR 109388 – PLEASE HOLD ON SUBMITTING CODES – Maine DHHS (6/16)**
